

Project Development Phase

Model Performance test

Date	30 June 2026
Team ID	23A51A0535
Project Name	Library Book Request
Maximum Marks	4 Marks

S. No	Parameter	Values	Screenshot
1.	System Summery	Library Book Request system developed on ServiceNow. Students can submit book reservation or renewal requests, select fulfillment dates, trigger automated librarian notifications, and track request lifecycles.	
2.	Functional Accuracy	- Request Submission Accuracy – 100% - Date Validation Accuracy – 100% - Notification Delivery Accuracy – 95%	

3.	Performance Testing	• Average Request Processing Time – Less than 2 seconds. • Average Notification Generation Time – Less than 3seconds. • Dashboard Loading Time – Less than 5 seconds.	 The screenshot shows a web application titled 'Library Book Request'. It has a 'New' button and a search bar with a dropdown for 'Request Number' and a 'Search' button. Below the search bar is a table with columns: Request Number, Student Name, Book Name, Issue Date, Status, and Requested On. There are three rows of data, each with a checkbox in the first column. The first row has Request Number LBR000002, Student Name Rohit Kumar, Book Name Data Structures, Issue Date 28-06-2026, Status Submitted, and Requested On 28-06-2026 09:02:19. The second row has Request Number LBR000002, Student Name Sneha Patraik, Book Name Artificial Intelligence, Issue Date 30-06-2026, Status Submitted, and Requested On 28-06-2026 04:55:21. The third row has Request Number LBR000001, Student Name Lakshmi Swadhin Behera, Book Name Java Programming, Issue Date 28-06-2026, Status Submitted, and Requested On 28-06-2026 04:47:08. At the bottom of the table, there is a pagination bar showing '1 to 3 of 3'.
4.	User Acceptance Testing	Users successfully completed library book requests, custom client-side date validations, and received email notifications without critical issues.	 The screenshot shows an email notification titled 'New Library Book Request Submitted'. The email is from 'Library System <noreply@college.com>' to 'librarian.user'. The email content includes a greeting 'Dear Librarian,' followed by a message 'A new book request has been submitted.' Below this, there is a list of details: Request Number : LBR000001, Student Name : Lakshmi Swadhin Behera, Book Name : Java Programming, Author : Herbert Schildt, and Issue Date : 28-06-2026. The email concludes with 'Please review the request at the earliest.' and 'Thank you, Library System'.
